

# Pelly River Chinook Sonar Project

# Objective

- In-season estimate of the number of Chinook salmon moving through the Pelly River

# Year 4

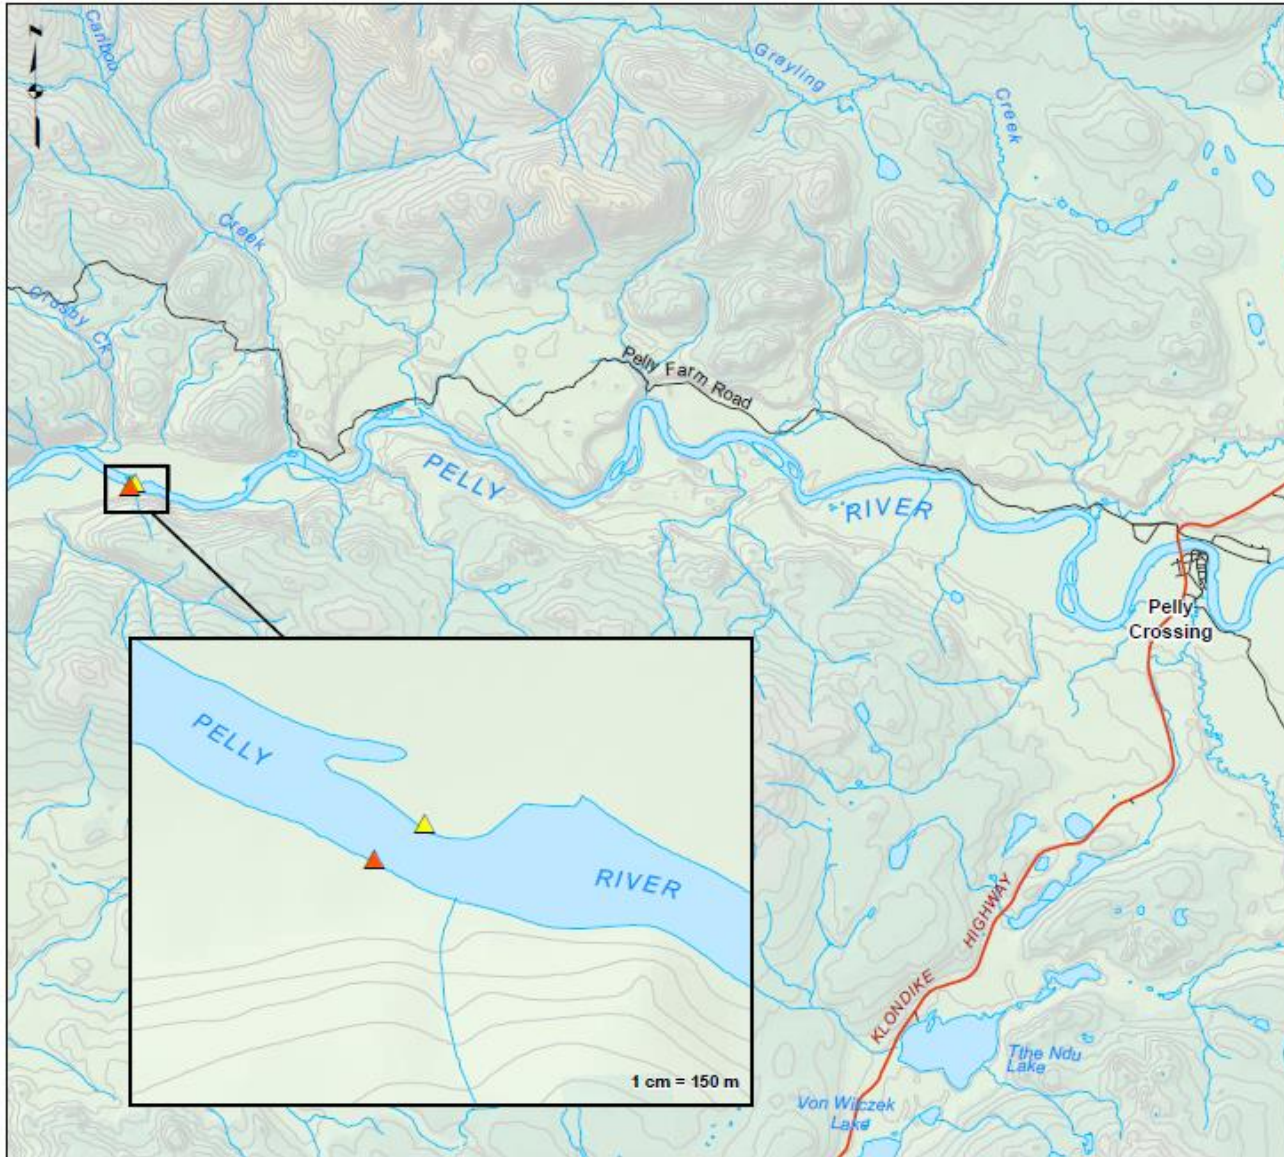

# Why?

- Annual monitoring of the run
- Understand the importance of the run relative to other rivers
- Help SFN and DFO manage the resource

# Where?

24 km downstream  
of Pelly Crossing

12 km upstream of  
Pelly Farm

24 km upstream  
from the Yukon  
River

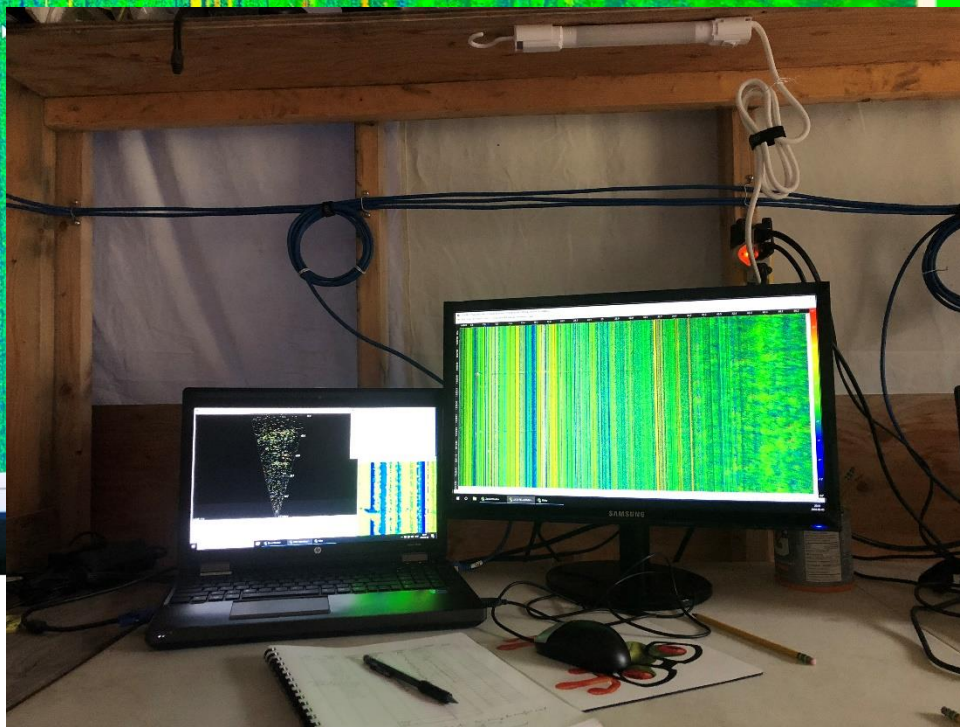

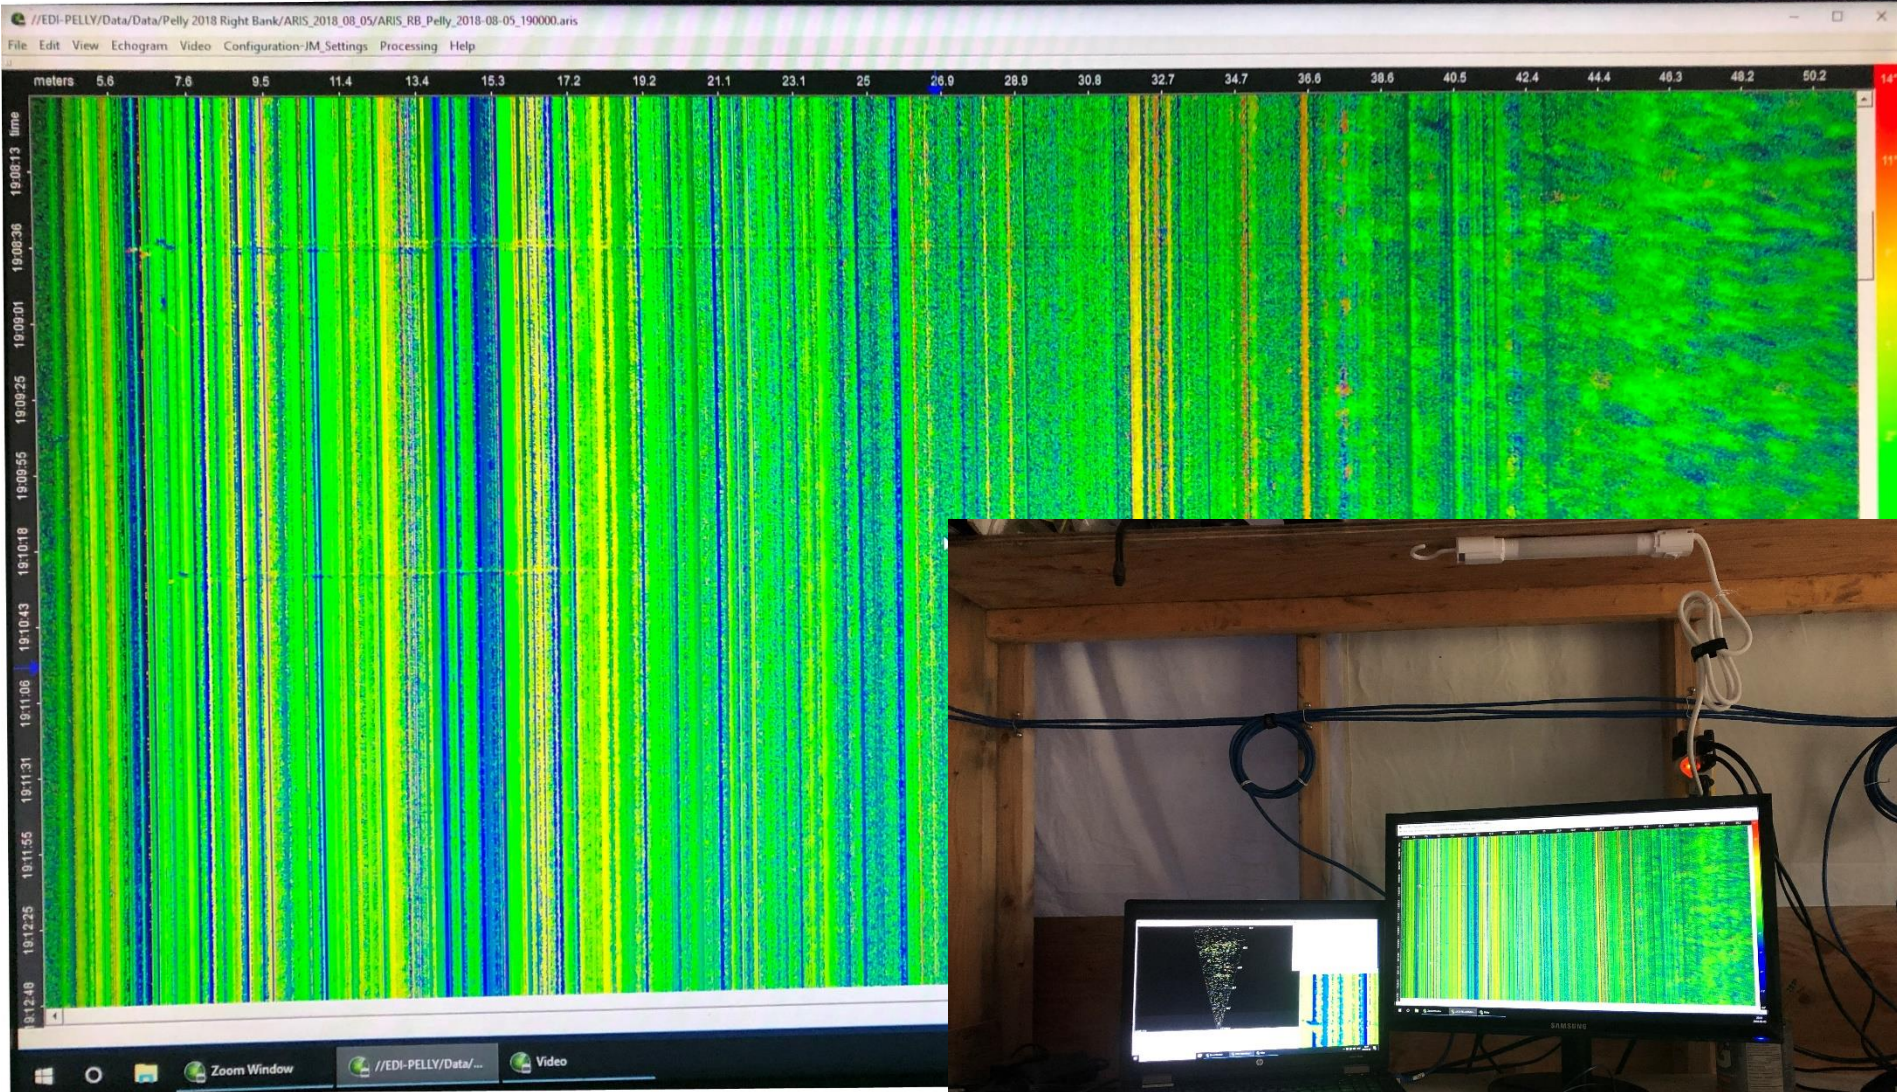

# How?

- Sonar units placed on each bank detect fish.

# Test Netting
